MODERN EQUIPMENT

For the production of beverages, Volynski Browar uses modern equipment from Europe, the USA, and Ukraine, as well as high-quality raw materials sourced from around the world.

The production process includes wort preparation, fermentation, and bottling, with the plant's capacity allowing for up to **10,000 hectoliters** of beer per year, excluding non-alcoholic beverages and cider.

The brewery's brewhouse is equipped with **Blonder Beer** (Slovakia) systems, with a capacity of **15 hectoliters** of finished beverage per brew and the ability to produce up to **7 brews per day**.

The facility's tank farm includes **43 cylindroconical fermentation tanks** of various volumes from Slovak and Ukrainian manufacturers, with a total capacity of **1,500 hectoliters**.

Bottling in glass bottles is performed using **MEHEEN** (USA) equipment; canning is done with **MICRO CAN** (UK) systems; keg filling is handled by **Blonder Beer** (Slovakia). Labeling is carried out using equipment from **ETYMAX** (Poland) and **KRONES** (France).

THE SECRET OF QUALITY

At the core of our brand are the health and preferences of our consumers.

Volynsky Browar operates its own state-of-the-art laboratory, equipped with the latest technology to ensure strict quality control of both raw materials and finished products. Our team includes 30 highly qualified specialists dedicated to maintaining excellence.

Our beer is crafted using unique recipes developed by our master brewer, based on premium malt sourced from Germany, Belgium, and Ukraine.

We use water from our own Nadsluchanske spring, reaching a depth of 124 meters. Its rich mineral composition contributes to the distinct taste and smoothness of the final product.

Selected yeast strains from Belgium, France, and the USA shape the beer's style, while aromatic hops from Europe, America, and New Zealand add a clean, delicate, and refined bouquet with notes of tropical fruits, citrus, and pine.

ACHIEVEMENTS AND EXPORT

The professionalism and reputation of Volynsky Browar are confirmed by:

- Certification of Food Safety Management System ISO 22000
- Gold and silver awards at national and international competitions

Our partners include Ukraine's leading retail chains such as Metro, Cash & Carry, Auchan, Velmart, Novus, Fozzy Group, Winetime, Okwine, Varus, Spar, Hop Hey, Rozetka, Maudau and others.

Since 2021, our products have been exported to Lithuania, Poland, Estonia, Sweden, and the United Kingdom.

We strive to introduce our natural, high-quality, and flavorful beverages to as many countries as possible.

OUR PRODUCTS

WEIZEN

Weizen Lager

We are working to make it possible for you to taste not only Ukrainian but European traditions as well.

German beer "Weizen" has a vivid aroma of coriander which stands out of other ingredients. We should also mention spices and fruit providing it with unique refreshing character. Turbidity and yeast sediment is a natural product feature.

Density	12.0°
Alcohol	4.9 %
IBU	12
Color	Light
Volume	0.5 L
Shelf life	12 months

PORTER

Baltic Porter

Porter is a dark specialty beer, which is called black gold. It has a thick foam with the tinge of 'white coffee', its aroma is predominated by malted basis with the flavor of caramel, coffee and chocolate.

Its aftertaste is long, candy-sweet, with a touch of bitterness. Porter has absolutely no alcoholic off-flavor, but it warms you up well, which is particularly pleasant during a cold season. This beer can be perfectly combined with chocolate desserts and bitter chocolate.

Density	15.5°
Alcohol	5,8 %
IBU	20
Color	Dark
Volume	0.5 L
Shelf life	12 months

OUR PRODUCTS

SWEET WIT

Blanche

Blanche, Witbier, or just “white beer” – this is how a beer style of our Sweet Wit called. It is brewed by following the best Belgian traditions, already recognized by plenty of fans across the globe. Naturally hazy, refreshing beer with fruity and spicy notes is waiting for you on shelf in the closest supermarket.

Bon appetit!
